

## GREATNESS OF ARIZONA

In Area, Wealth and Natural Resources—  
Mines Yielded \$90,000,000 Last Year

The following is an extract from the speech of Congressman Beall, of Texas, in opposition to the joint statehood bill: "Arizona has in round numbers 114,000 square miles, while New Mexico has 121,000. Arizona, the smaller of the two, is larger than New York and Pennsylvania, with New Jersey, New Hampshire and Delaware thrown in. It is more than twice the size of Illinois, nine and one-half times as large as Maryland, twelve times as large as Vermont, thirteen times as large as Massachusetts, fourteen times as large as New Jersey, twenty times as large as Connecticut, fifty-five times as large as Delaware, ninety-one times as large as Rhode Island. It is as large as Ohio, Indiana and Virginia combined. So it can hardly be said that either of these two territories is wanting in sufficient area.

"Have they sufficient wealth to properly support and maintain a state government? The wealth of Arizona has been estimated to be about \$400,000,000. She has almost 2000 miles of railroads within her borders. This railroad mileage is worth four times the value of all the property in Ohio, Indiana or Michigan when these states were admitted. Its mines yielded in one year—last year—\$90,000,000, which is double the value of all the property of some of the states when admitted. It is the second copper producing district in the union and will soon be first. There are twenty banks in Arizona with resources of more than \$1,500,000. She has the largest unbroken forest in the world, with an area in excess of 6000 square miles and with timber reserves of more than 7,000,000 acres. It has hundreds of thousands of acres that a few years ago were a part of the desert that have felt the vivifying touch of irrigation and are now producing in marvelous abundance.

"Arizona has an educational system of which she may well be proud. In her American population there is comparatively no illiteracy. She has a compulsory system of education with 22,000 children filling her school rooms. She pays the highest salaries to her teachers, and has in her schools a larger per cent of college bred teachers than any state in the Union. She has her system of high schools and a Territorial University.

"She has her asylum for her unfortunate and her penitentiary for her vicious. She has a splendid capitol and other public buildings. Her bonds are selling above par in the market places. She collected in taxes last year \$675,504.85, and expended \$593,715.49. All this development has occurred and all these things have been accomplished while she has been fettered and oppressed by her dependent position as a territory. If given the prestige of statehood and the advantage that will result, who can forecast what her development will be during the next decade?"

Reports from the Salton district say that the sea has risen eight feet in the last ten days. This rise is absolutely unprecedented, says the Tucson Post, and goes to confirm the theory that the sea is fed from subterranean passages from the Gulf of California. Not much effort is being made at present to stop the flow of water through the canal intake but as soon as the high water period is over the work will be resumed and probably completed by fall.

PINAL COUNTY BUDGET  
FROM FLORENCE BLADE

Application has been made for the reestablishment of a postoffice at Ray, under the name of Sharps. There were thirty signers to the petition.

W. Y. Price and wife left for Kelvin Wednesday. The Florence Commercial company is preparing to open a branch store at Ray, under the management of E. W. French.

Contractor Tharp commenced planting telephone poles between here and Superior Thursday. He started at this end of the line and expects to reach Superior within thirty days.

Court was in session one day this week and disposed of motions. The Silver King case was compromised by the relocators taking a three years' lease and bond on the property from the Silver King company. The purchase price named in the bond is \$350,000.

The new ice plant at Kelvin commenced freezing ice Monday. J. I. Coleman, who erected and owns the plant, has put in about 18 hours per day for several weeks past in getting the plant into running order. He had to replace several parts of the machinery on account of the defects in the castings, but finally overcame all difficulties and the plant is now running smoothly. Wm. Weeks is assisting him in its operation.

The wagon road from the Deer creek coal mines to the Christmas smelter, is sufficiently completed to permit the passage of coal wagons and these coal mines now furnish the steam fuel used at Christmas. Gen. Manager Chittenden will have coke ovens constructed soon and will then manufacture all the coke needed at the Christmas smelter. This will greatly reduce the cost of making copper matte at Christmas and therefore assist materially in placing property on a dividend basis.

## Returns of Elections for Local Option

Globe, Arizona, May 14th, 1906.

The returns of elections for local option of May 4th, 1906, for Summit precinct having been received, the board proceeded to count the vote cast at such election, with the result of forty-five (45) votes for prohibition and eight (8) votes against prohibition.

Upon motion duly carried it was ordered that the vote for prohibition be sustained and that the sale of intoxicating liquors within the prescribed limits of said Summit precinct be absolutely prohibited, except for the purposes and under the regulations required by law, until such time as the qualified voters may at a legal election held for that purpose by a majority vote decide otherwise.

From minutes of the board of supervisors of Gila county, Arizona.

W. D. FISK, Clerk.

## Retiring from Business

Notice is hereby given that I will retire from business on June 1, 1906, and all persons indebted to me are requested to call and pay their bills. Accounts not liquidated by that date will be placed in the hands of an attorney for collection.

COCHISE FINDS ORE  
AT 300-FOOT LEVEL

The sensation of the week in local mining circles has been the strike made at the Cochise. On the 300-foot level in the west drift, being run for the purpose of prospecting the contact, pockets of ore running as high as 22 per cent were encountered Wednesday.

The effect on the market was quickly responsive. In the face of the \$2.50 call to be made on June 1, Cochise, resting inactively at \$6 asked, dropped to \$5.50 with no particularly excited bidding even at that figure. Bids as low as \$4.50 were able to bring out small blocks of the stock, but with the rumor of a strike corroborated came a sharp rise in the market and Cochise at the close of the week was the one active stock on the unlisted board. Saturday found plenty of bidding at \$5 with little of this stock coming out.

The drift in which ore was encountered was started some weeks ago from the 300 level of the main shaft, and is being run west parallel with the line of the Copper Queen. Little hope has ever been held out that ore would be encountered before the contact was reached. When in a distance of 350 feet, small pockets began to show ore running from 12 to 22 per cent. As drifting progresses it is reported that these pockets are of more frequent occurrence and higher grade ore predominates. —Bisbee Review.

## Notice

Pay less and  
Dress Better

I have just been appointed salesman for this district for the famous Kvoal Tailors of Chicago and New York. This concern is well known as the largest Merchant Tailoring House in the world—and the BEST. I take your measure for a suit or coat and the Royal Tailors make it in their new sanitary building where over 2500 employees are engaged. Every suit or coat is made to order. I carry 400 samples showing the newest goods. Prices very low. Look at the samples. You don't have to buy. I want to "get acquainted."

Also agent for the famous Wilder Bros. tailor made shirts and special knit underwear.

M. Everett Nowles.  
Lock Box 398. Globe, Ariz.
